SUMMARY

Skilled in Power BI, DAX, Power Query, and Advanced Excel (VLOOKUP, HLOOKUP, VBA) for building dynamic dashboards, automating data workflows, and delivering actionable business insights.

EXPERIENCE

Data Analyst Intern

Rows&Columns

May 2025 - April 2026, Kozhikode

- Designed Power BI dashboards for customer acquisition, retention, and sales performance tracking.
- Built dynamic KPIs using DAX, Power Query, and advanced Excel functions (VLOOKUP, HLOOKUP, XLOOKUP).
- Automated data processing and reporting using Excel VBA macros and Power BI workflows.
- Integrated multi-source data (Excel, SQL, CRM) for real-time analytics and reporting.
- Performed customer segmentation and churn analysis to drive sales and marketing strategy.
- Delivered data-driven insights to optimize sales operations and customer engagement.

PROJECT

Automated Fuel Pricing & Conversion System

Rows&Columns

- Developed an automated fuel pricing system using Excel VBA and UserForms.
- Calculated all-in fuel costs by integrating taxes and multiple airport fees.
- Implemented Insert, Edit, Delete operations for pricing data management.
- Used dropdowns and input validation to ensure data accuracy.
- Reduced manual effort and errors through process automation.

Planning Report

Rows&Columns

- Developed and optimized interactive Power BI dashboards to monitor sales performance, customer acquisition, and retention metrics.
- Created DAX measures and data models to calculate KPIs such as sales growth, customer retention rate, and target achievement.
- Automated data extraction and transformation using Power Query to ensure accurate, real-time reporting from multiple data sources.
- Collaborated with business teams to translate analytical findings into actionable insights for improving sales and marketing strategies.
- Enhanced data visualization and reporting processes, improving management decision-making and business performance tracking.

Customer Relationship Management

Rows&Columns

- Developed interactive Power BI dashboards to track customer acquisition, retention, and sales performance.
- Analyzed customer behavior and segmentation to identify high-value and churn-risk customers.
- Created KPI metrics for sales, leads, and customer engagement using DAX measures.
- Automated data integration from multiple sources for real-time reporting and insights.
- Engineered a robust data-driven CRM solution that unified disparate customer data sources, enabled real-time analytics, and empowered stakeholders with actionable insights to drive targeted engagement initiatives.

EDUCATION

Bachelor Of Commerce

Minor in Finance • Government College Mananthavady • Wayanad • 2025 • 6.4

SKILLS

Technical Skill: Advanced Excel, Power BI, SQL , Tableau

Soft Skill: Communication, Leadership, Analytical Skill, Problem Solving
